## FOR IMMEDIATE RELEASE

### **Sedgwick County to Host Neighborhood Drainage Discussion**

(Sedgwick County, Kansas) – Sedgwick County Government will hold a meeting to discuss upcoming drainage improvement projects in southern Sedgwick County and gather input from residents on Thursday, January 10. The meeting will begin at 7:00 pm and will be held at the Haysville Community Building, 130 E. 2<sup>nd</sup> St.

The meeting will provide information to residents as Sedgwick County continues with drainage improvements in the area. Sedgwick County established a Stormwater Management Department in 2001, and engineers hired by Sedgwick County have completed a drainage and groundwater study of the area.

“I know that flooding has been a concern for the residents of southern Sedgwick County for many years,” said Tim Norton, 2<sup>nd</sup> District Sedgwick County Commissioner. “I’m pleased that we are working on some solutions to help with the drainage problems we’ve experienced in this area.”

Projects planned over the next several years will address flooding near 95<sup>th</sup> St. S. and Broadway, and along the Cowskin Creek from 79<sup>th</sup> St. S. to just south of 103<sup>rd</sup> St. S.
